**ROSEFIELD PEONY GARDENS**

“ “ Reno Rosefield, Owner “ “  
West Grand Avenue Road  
Valley Junction P. O., “ “ Route 1

**DES MOINES “ “ IOWA**

## General Instructions

### ORDERS

It is always an advantage to have your orders placed early. The spring planting season, at best is too short for the amount of garden work we wish to do and if your planting material is ordered in advance so as to be on hand early it will help us both. Iris may be planted in April but it is considered better to start planting them soon after they have finished blooming. July and August being the best months. Phlox and many other perennials may be planted in the spring to the best advantage.

### TERMS

Please send remittance with order, which may be made by personal check, postoffice or express money order, or bank draft. It is unsafe to send currency through the mails even in registered letters.

### SHIPMENTS

Small parcels will be sent by parcels-post; larger ones should go by express. It is a general rule in business practice that the transportation charges on merchandise be paid by the purchaser.

### LOCATION

The Rosefield Peony Gardens are located about 3½ miles directly west of the city of Des Moines, Iowa, on Federal highway No. 32 which is carried through Des Moines East and west on Grand Avenue. The Gardens are easy to locate and reach by motor and visitors are always welcome.

Address all communications to

# IRIS

There is something appealing about the Iris, coming as it does into its full glory about the middle of May when the lilacs are about past their best. They give color, beauty and fragrance to the garden during the period between the blooming of the tulips and the grandest display of the season, the blooming of the peonies.

The Iris is hardy and reliable and the modern lists embrace so many beautiful improvements over the older and more common varieties it behooves every lover of flowers to investigate them and by all means have as many as space and means will permit.

The ideal home garden of flowers will have a variety of the most dependable hardy perennials and chief among these will be peonies, iris and phlox with peonies predominating.

## A SHORT LIST OF GOOD IRIS

Siberica, Perry's Blue	—Very beautiful sky blue showing white on the falls. One of the finest Siberian iris .....	1.00

## PERENNIAL PHLOX

The perennial phlox fill a need for bloom in the garden during the trying period from about the middle of July to October. They thrive in open sunlight in any good garden soil, are perfectly hardy and give a wealth of color and beauty to the garden through the late summer months.

Mildew, which sometimes appears on the lower leaves may be overcome by spraying with Bordeaux mixture or by dusting with powdered sulphur.

Phlox may be planted either during the early spring or early fall. (About September). If planted in the fall a mulch of leaves during the first winter will be beneficial.

The following varieties are among the best to be obtained. The colors are clear, distinct and beautiful.

Aetna	—Deep coral red .....	.75
Beranger	—White, suffused pink; bright crimson eye .....	.25

Bridesmaid—White with rose eye. Good .....	.25

## Miscellaneous Hardy Perennials

The following are a few of the favorites of the old time gardens and are very popular today. They are all very hardy and dependable.

**Achillea, The Pearl**—An attractive dwarf growing plant bearing a profusion of pure white flowers in midsummer. Suitable for cutting. Very hardy and dependable. Each 20c. Per 10..... \$1.50

**Dictamnus (Gas Plant)**—This plant bears racemes of flowers of a strong lemon fragrance. There are two distinct colors; white and rose. Our stock for spring delivery being mixed. This plant is one of the most permanent features of the hardy garden. It has been known to outlive three generations in one location. Foliage attractive through the whole season. Blooms last of May. Each ..... .50

**Dicentra (Bleeding Heart)**—The Bleeding Hearts are very charming old time favorites, bearing heart shaped rose colored flowers in long drooping racemes. We offer two varieties as follows:

**D. Spectabilis**—This is the large flowered old time favorite which blooms in the spring. Each.... .60  
Per 10 ..... 5.00

**D. Exima**—Dwarf growing variety with fern-like foliage and racemes of small flowers. The foliage is beautiful through out the season and the plant blooms from spring until killed by frost in the autumn. Each ..... .25  
Per 10 ..... 2.00

**Hemerocallis (Thunbergii)**—A beautiful variety of hemerocallis with grass-like foliage and fragrant lily-like flowers of a clear lemon yellow. Blooms profusely in July. Very hardy and dependable Each ..... .20  
Per 10 ..... 1.50

<b>Gypsophila Paniculata</b> (Baby's breath)—A branching, slender stemmed plant covered with minute blossoms in July and August, producing a beautiful, mist-like appearance. This flower may be used to great advantage with any other flower or flowers regardless of color or type. Each .....		.20

<b>Lily</b> (Single tiger lily)—This is one of the hardiest and most dependable of all lilies for the hardy garden. Color a deep orange scarlet with black dots. Each .....		.20
Per 10 .....		1.50
<b>Lily</b> (Superbum)—Flowers bright reddish orange with black dots. Blooms in July. Smaller than the Tiger lily. Each .....		.20
Per 10 .....		1.50
<b>Rudbeckia</b> (Golden Glow)—The variety we are offering is a decided improvement on the old Golden Glow. The flowers are as perfect as a small golden dahlia. The plant grows about five to six feet in height. (This improvement was developed by Hans Sass). Each .....		1.00
Per 10 .....		8.00
<b>Yucca Filamentosa</b> —One of the few plants in this climate with an evergreen foliage. Produces spikes of drooping creamy white flowers in July. Flower spikes 3 to 4 feet. Attractive the year around. Each .....		.40
Per 10 .....		3.00

## PEONIES

Every garden, large or small, should have a generous planting of choice peonies. This flower has been our specialty for over forty years, the business having been founded by Mr. J. F. Rosefield in 1883. Please be sure to get a copy of our exclusive Peony catalog if at all interested in this flower.
